

1**SELECTION**

Apprentices must pass both employer and Makers Apprenticeships selection processes.

2 - 3 MONTHS**2****PRECOURSE**

Apprentices take a 4-week foundation course on the basics of coding. This is done remotely with online coaching support

1 MONTH**3****MAIN COURSE**

Apprentices take a twelve-week programme from a Makers Apprenticeships location, with full coach support. The Main Course will enable you to become a Junior Software Developer as well as allow you to start to build up your portfolio, ready for the Endpoint Assessment

3 MONTHS**4****PLACEMENT**

You'll start your new role at the employer's office, with frequent support from our coaches. You'll be a full-time developer just 4 months after starting the programme. You'll continue to build your portfolio and develop your skills through this stage.

8 MONTHS**5****ASSESSMENT**

Apprentices are assessed according to their portfolio, project and synoptic interview performance.
